

Transform your car into a high performance machine with Ractive's complete line of performance and styling components. From super flow heat shield filters to seamless, stainless steel mufflers to a superior selection of pedal sets, shift knobs and strut bars, Ractive gives you the opportunity to stylize and enhance every aspect of your ride.

**SF300 Translucent Heat Shield Filters (3"/76mm Neck)**

The filter combines a conical design with a heat shield improving performance with higher HP, and more significantly better bottom end torque. The filter will fit on any 3" diameter pipe.

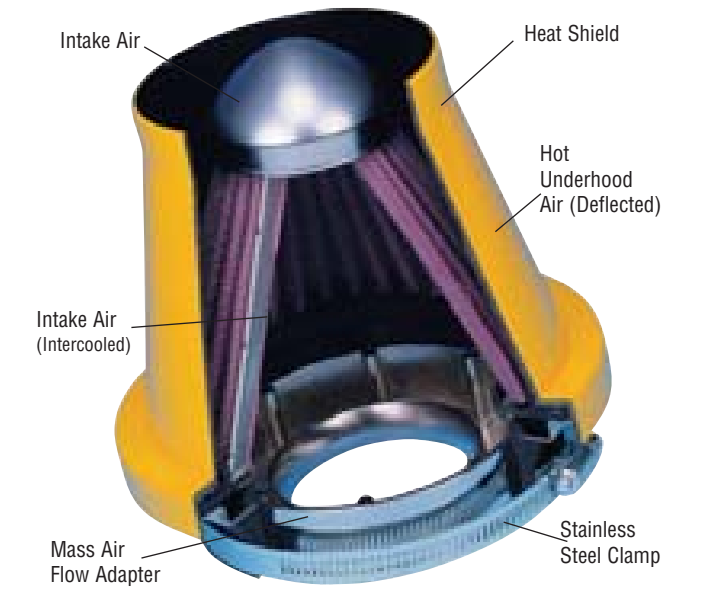

Item #	Color
SF300BL	BLUE
SF300RD	RED
SF300YL	YELLOW
SF300CH	CHROME
SF300CF	CARBON FIBER

**SF007 Heat Shield Filters (3" / 76mm Neck)**

The conical cotton element filter design combined with a heat shield has been dyno tested, improving performance with higher HP, and significantly better bottom end torque. The filter will fit on any 3" diameter pipe.

# ractive Performance Intakes

# ractive® Strut Tower & Lower Arm Bars

## Strut Tower & Lower Arm Bars

These are constructed from tubular 6061 T-6 aircraft aluminum, which has a high stiffness to weight ratio. Tighter fitting tolerances are possible due to a more compact design, which allows greater clearances from engine components.

# ractive® Coil Over Kits

## Ractive® Coil Over Kit

Allows the user to lower the ride height of the vehicle up to 4 inches. The coil springs have a tensile strength of 1660 to 1810N/sq mm. The strut sleeve is comprised of CNC machined from forged 6061 T-6 Aluminum. The set of four coil-overs come complete with "O" ring spacers to adapt kit to most factory and aftermarket shocks, two custom adjusting wrenches, and set screws.

## Ractive® Euro Coil Over Kit

The latest in the line of suspension upgrades from Ractive. Each corner consists of two individual springs. One spring rate is optimized for boulevard cruising while the second is ideal for cornering at the limits. The perfect setup for your lowered ride.

# Ractive® Fuel Pressure Regulator & Sleeve Hose Kit

## Ractive® Fuel Pressure Regulator

Replaces your vehicles factory regulator for increased power and response. Stock fuel regulators are unable to meet your vehicles increased demands after the modification of its induction and/or exhaust system. The integral pressure gauge allows for fine adjustment of the fuel supply.

## Ractive® Sleeve Hose Kit

The final touch in under hood detailing. Braided hose and anodized fittings in 3 colors give your engine that extreme racing look.

# ractive® Cross Drilled/Slotted Rotors

## Ractive® Cross Drilled/Slotted Rotors

Match your brakes to your engine. Ractive® Cross Drilled and Slotted rotors keep their cool, providing increased surface area for venting the gases caused by the extreme heat of braking. Rotors and pads last longer than stock. Rotors remain warp free for rock solid stopping power. Cadmium plating prevents corrosion.

## Active® Racing Seats

The Active racing seats are comprised of the most durable, high quality, non-fading material. The seats feature superior lateral and lumbar support combined with outstanding long distance comfort. The Active racing seats are unique because they complement our full line of styling and performance products in both color and design. The seats will add a customized racing look to the interior of your vehicle, while providing a comfortable ride. A complete hardware package and slider is included with each seat. The seats are sold in pairs. The seats are designed for use with racing harnesses.

## Active® Elite Series Racing Seats

This is the most advanced adjustable seat made by Active. It incorporates all the features of the standard reclining seat with beefed up side bolsters for increased lateral g-forces and the Active adjustable lumbar support built in. The backrest is micro adjustable with a rapid return system. Finished in a perforated micro pore ultra suede material in your choice of four colors with textured abrasion proof inserts. These will surely add that finishing touch to your cars interior and that element of control to your driving experience.

70040  
Grey Suede

## Adjustable Lumbar Support

The new Active lumbar support features a patented micro-adjustable mechanical system allowing the perfect amount of support for your lower back for the longest rides. Constructed of a perforated micro pore ultra suede material and available in four colors.

**active Performance Wings**

**Active® Performance Wings**

Toucan Industries, Inc., introduces Performance Wings into the Active line of sport and performance products. The wing is available in both single and dual style for that racing look you crave. The top deck is adjustable to increase down force. Includes mounting bracket and hardware. Available in black and silver.

**active Performance Wings**

**Active® Elite Series Performance Wings**

All new Elite Series Performance wings. These wings offer the extra kick of performance and style that your vehicle is missing. The 5005 Dual Silver design is equipped with two mini gas shocks to allow it to self adjust your vehicles down force as you drive. While the 5004 gives the user an ultra lightweight carbon fiber adjustable wing with aero dynamically constructed winglets.

**Active® Elite Series Wing**

The look and performance of the 5006 speaks for itself. It is constructed of lightweight Billet aluminum with sleek slim line winglets, aero dynamic stanchions, and added air coil fin to increase vehicles down force.
